julep

Nonprofit Fundraising & Management CRM

A Comprehensive & Flexible CRM

As the nonprofit sector changes, you need a flexible CRM that adapts with your organization while building new relationships and keeping existing donors engaged. Developed by fundraising veterans, Julep is a fresh approach to nonprofit management software designed to help you do your job better without an enormous price tag and steep learning curve.

Donor Management

With the extensive donor management suite, Julep has the tools needed to build up fundraising programs from small donors to major gifts.

Seamless Donation Processing

Between a seamless integration with Anedot and multiple features for data entry and processing, managing the giving process is easy.

Detailed Profiles

Get a 360-degree view of prospects, donors, and organizations at-a-glance. With Julep's profile tools, create a personalized outreach plan to cultivate relationships with all types of donors.

Interactive Dashboards

Julep's set of dashboards provide a visual into the metrics that matter the most for every function of nonprofit management.

Search & Reporting Suite

Julep's search and reporting functions form the core of the platform. From simple queries to saving customized searches, Julep's search options will fit each organization's needs.

Integrate Email & Online Fundraising

Julep offers integrations with email marketing platforms, such as MailChimp and Constant Contact. The CRM also seamlessly connects with Anedot for online giving.
